

HCV Cancer Alliance Programme Update to Stakeholders – 03 November 2017

As part of the Programme Communications and Stakeholder Engagement Strategy the programme team is keen on keeping the stakeholders in the system well informed on the latest developments. We will do this by sending brief updates systematically to all those involved in delivering the best possible care in cancer services within the Alliance footprint.

This week the programme has:

- Had the first Programme Executive meeting on 03 November 2017.
- Continued to monitor and support the delivery of the 62 day waiting standard.
- Agreed new Terms of Reference for the Programme Board, System Performance and Monitoring (SPAM) Group and Programme Executive to be included for consideration at the next Programme Board meeting on 13th November 2017.
- Had the Living with and beyond cancer delivery board meeting on 30 October 2017.
- Had initial discussions around the emerging concept of an Accountable Care System(s) and its implications for cancer. Topic to be presented at the next Board meeting by Humber, Coast and Vale STP Programme Director.
- Started financial modelling work to determine the financial impact for the health economy of the transformation elements of the programme.
- Preparations for the improving lung cancer stakeholder event on 01/12/17 are ongoing. An event registration page has been created on Eventbrite and will be circulated this week. The workshops will help support the Treatment & Pathways work stream. This event will be a clinical forum and attendees will predominantly be clinicians. Future events are being planned, which will be aimed at engaging with patients to ensure their voices are heard
- Next stakeholder updates will be on:
 - Friday 10 November 2017
 - Friday 17 November 2017
