

Step into Health and Social Care

Humber, Coast and Vale Health and Social Care

Example Career Pathways for Support Workers

GET IN	GET ON	GO FURTHER
These are the sort of jobs you could do at the start of your career. You will develop good basic knowledge and skills and gain qualifications to start you on your career.	As you gain more experience you will be able to do a variety of tasks with little guidance or supervision. You will be able to do other types of jobs, such as the examples here, and take more qualifications to move you along your career pathway.	At this point you will be an experienced, well qualified professional and probably responsible for managing others. You will be working with a high level of expertise and competence. These are the sort of jobs you could do.

WHERE NEXT

There are many other opportunities for further career progression in the Health and Social Care sector. The possibilities are as big as your potential and ambition!
